THIRD QUARTER RESULTS ANNOUNCEMENT FOR THE PERIOD ENDED 30 SEPTEMBER 2004

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

This announcement, for which the directors (the “Directors”) of CK Life Sciences Int'l. (Holdings) Inc. (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (i) the information contained in this announcement is accurate and complete in all material respects and not misleading; (ii) there are no other matters the omission of which would make any statement in this announcement misleading; and (iii) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

CHAIRMAN'S STATEMENT

Unrelenting Drive For Continuous Growth

CK Life Sciences Int'l., (Holdings) Inc. and its subsidiaries ("CK Life Sciences" or the "Group") have achieved good progress in the third quarter of 2004, with satisfactory growth in various aspects of operation and R&D, reflecting the sustained momentum of the Group's development.

Financial Highlights – Year To Date Sales Revenue Surges 4 Times; Profit Up 6 Times

HK\$'000	The Third Quarter			First Three Quarters Ended 30 September		
	2004	2003	Increase (%)	2004	2003	Increase (%)
Sales revenue	54,806	7,602	621	102,369	19,623	422
Investment proceeds	54,604	43,860	24	154,784	145,842	6
Total revenue	109,410	51,462	113	257,153	165,465	55
Operating profit	2,319	212	994	3,946	572	590
Profit attributable to shareholders	456	253	80	1,294	731	77

I am pleased to report that the financial performance of the third quarter was encouraging. For the third quarter ended 30 September 2004, the Group recorded an unaudited total revenue of HK\$109,410,000, doubling that of the same period last year. Operating profit surged to HK\$2,319,000, representing an increase of approximately 10 times over the same period last year; and profit attributable to shareholders reached HK\$456,000, about 80% increase over the corresponding period last year.

During the first three quarters of 2004, solid improvement was recorded in every quarter over the same period last year. For the nine months ended 30 September 2004, the Group's total revenue was HK\$257,153,000, a 55% increase over the same period last year. Operating profit came to HK\$3,946,000, representing an increase of 6 times over the same period last year; and profit attributable to shareholders was HK\$1,294,000, about 77% rise over the corresponding period last year.

This satisfactory performance reflects the upward momentum of the Group's financials.

The Board of Directors has not declared any dividend for the period under review.

Business Progress

(1) Sales

(i) Fertilizer Business

The Group's fertilizer business recorded satisfactory growth during the period under review. Mounting government concerns on the environment and the continued growth of the eco-food and organic markets have created favourable conditions for the development of the Group's fertilizer business. During the period under review, the Group's sales market for fertilizer continued to expand. Sales revenue for the third quarter surged approximately 7 times over the same period last year.

(ii) Nutraceutical Business

Sales revenue for nutraceuticals during the third quarter showed an 10% increase as compared with the same period last year, reflecting continuous growth in the demand for immuno-enhancing products as that of the Group's VitaGain™ products. During the third quarter, "VitaGain™ for Daily Immunity" and "VitaGain™ Nasal Allergy Relief" in capsule form were launched.

(2) Strategic Alliances

(i) Collaboration with SEPA on Eco-fertilizer Research Study

The efficacy of NutriSmart™ eco-fertilizer in reducing rural non-point source pollution was recognized in a large-scale collaboration project with China's State Environmental Protection Administration ("SEPA"). It was a research sponsored by the Asian Development Bank, and the findings are poised to become important references in the formulation of upcoming eco-agriculture policies.

(ii) Organization of Sustainable Rice Production Conference

The Group co-organized the International Conference on Sustainable Rice Production together with the China National Rice Research Institute to celebrate the International Year of Rice 2004. At the Conference, NutriSmart™'s environmental benefits and yield generating capabilities gained positive comments from over 170 agriculture officials, paddy rice researchers and environmental scientists from around the world.

(3) Cancer Research

The global research programme for the Group's cancer products is well underway. A series of pre-clinical studies have recorded satisfactory results, and clinical trials targeting different forms of cancer have commenced.

(i) *Progress on Pre-Clinical Studies*

- The Hong Kong University of Science and Technology – findings from recently completed *in vitro* and *in vivo* studies indicate that the Group's cancer products have particular inhibitory effects on the growth of prostate cancer cells; studies on breast cancer are in progress.
- The University of British Columbia, Canada – results from completed studies have demonstrated the inhibitory effects of the Group's cancer products on various pre-neoplastic and ovarian cancer cells.
- Further pre-clinical studies for different types of cancer are underway with renowned universities and institutions in Hong Kong, China and the US.

(ii) *Progress on Clinical Trials*

Clinical studies are in progress for prostate cancer, lung cancer, colorectal cancer and liver cancer in various universities and hospitals in Hong Kong and Australia.

(4) ISO Certification and Patent Application

(i) *CK Life Sciences' Laboratories Awarded ISO 9001:2000 Certification*

The Group has now been accredited with the ISO 9001:2000 certification in seven different areas pertaining to the administration of laboratories: research for eco-fertilizer, animal feed additive and bioremediation products; pre-clinical and clinical research of human-health related products; as well as product quality assurance and control.

(ii) *Two Additional Patents Granted*

During the third quarter, the Group was granted two additional patents by the US Patent and Trademark Office – one for an immuno-enhancing nutraceutical product and the other for an eco-fertilizer composition made up of sludge.

To date, the Group's total number of patents has been increased to 18, with another 51 patents pending.

The latest status for the Group's patent applications is as follows:

	Eco-agriculture		Bio-remediation	Nutra-ceuticals	Pharma-ceuticals	Dermato-logicals	Total
	Eco-fertilizer	Animal Feed Additive					
Patent Granted	6	-	5	7	-	-	18
Patent Pending	-	14	3	3	31	-	51
Drafting Stage	4	4	7	-	19	5	39
Total	10	18	15	10	50	5	108

Looking Forward

Increasing concern about the environment around the world is expected to result in more business opportunities for the Group's eco-fertilizer and business development. This would speed up the pace of market penetration.

In the field of human health, the market for health supplements is expected to continue to expand in the wake of heightened health awareness. The Group will launch a diversified range of new products to satisfy the needs of different consumers shortly.

The macro environment poses a favourable landscape for the Group and the demand for environmental and health-related products is set to increase. In the past few quarters, the Group has recorded good financial performance, with substantial investment proceeds and growing sales revenue. Such strong financial resources provide abundant funding for the Group's research projects and initiatives, and have helped to ensure a rapid pace of research progress. Currently, some of these research initiatives have reached a mature stage. Meanwhile, negotiations are in progress with several potential acquisition targets, and it is anticipated that further corporate expansion will be realized in the near future.

To conclude, the Group will embark on a three-pronged development plan that encompasses short-term, mid-term and long-term growth strategies. Under such a tremendous driving force, sustained growth momentum is expected.

Acknowledgements

I am appreciative of the unrelenting efforts shown by our staff in driving the Group forward, accelerating the growth of our business, and expanding the scope of our R&D. I would like to express my gratitude to our staff, business and research partners, as well as reiterate our commitment to steady growth as we aspire to new heights in the Group's development.

NOTES:

1. Basis of preparation and principal accounting policies

The unaudited consolidated results of the Group have been prepared in accordance with accounting principles generally accepted in Hong Kong and the applicable disclosure requirements of the GEM Listing Rules. They have also been prepared under the historical cost convention, as modified for the revaluation of certain fixed assets and investment in securities.

The accounting policies used in preparing the unaudited consolidated results are consistent with those used in the Group's annual financial statements for the year ended 31 December 2003.

2. Turnover

Turnover represents net invoiced value of goods sold, after allowance for returns and trade discount as well as income from investment in securities.

To better reflect the Group's activities, the Group has re-grouped its operations into 3 business segments: Environment, Health and Investment. The products of the Group have been consolidated into Environment and Health while income from investment in securities has been included as the Group's turnover. Comparative information has been re-stated to conform with the current year presentation.

3. Staff costs

Staff costs which include salaries, bonuses, retirement benefit scheme contribution and recruitment costs for the three months and nine months ended 30 September 2004 respectively amounted to HK\$37,674,000 (2003: HK\$27,928,000) and HK\$99,290,000 (2003: HK\$85,240,000) of which HK\$5,842,000 (2003: HK\$4,290,000) and HK\$17,060,000 (2003: HK\$13,296,000) relating to development activities were capitalized.

4. Taxation

Current period taxation represents overseas taxation which is the aggregate of income tax provided for at the applicable local rates on the estimated assessable profits and withholding taxes payable by an overseas subsidiary (2003: Nil).

No provision for Hong Kong profits tax has been made as there was no assessable profit for the three months and the nine months respectively ended 30 September 2004 as well as the corresponding periods of last year.

No deferred tax assets has been recognized in respect of the tax losses as it is not possible to predict the trend of future profits to determine the amount of available tax losses to be utilized.

5. Earnings per share

The calculations of the basic and diluted earnings per share are based on the following data:

	For the three months ended 30 September 2004		For the nine months ended 30 September 2004	
	HK\$'000	HK\$'000	HK\$'000	HK\$'000
