FIRST QUARTER RESULTS ANNOUNCEMENT FOR THE PERIOD ENDED 31 MARCH 2007

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

This announcement, for which the directors (the “Directors”) of CK Life Sciences Int'l., (Holdings) Inc. (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (i) the information contained in this announcement is accurate and complete in all material respects and is not misleading; (ii) there are no other matters the omission of which would make any statement in this announcement misleading; and (iii) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

CHAIRMAN'S STATEMENT

Investment proceeds	8.2	19.5	-58%
Total revenue	503.8	427.5	+18%

Marking an excellent start to 2007, CK Life Sciences Int'l., (Holdings) Inc. ("CK Life Sciences" or the "Group") has reported a strong performance in the first quarter of the year.

For the three months ended 31 March 2007, profit attributable to shareholders was HK\$30 million, an increase of 13 times over the same period last year.

Total revenue exceeded the HK\$500 million mark, representing an increase of around 18% over the same period last year.

The Board of Directors has not declared any dividend for the period under review (2006: Nil).

Health Sales Surpassed HK\$380 Million

CK Life Sciences has reported continued growth in nutraceutical businesses across major markets of Hong Kong, the Netherlands, Canada and the United States. Our acquisitions in North America, namely Santé Naturelle A.G. Ltée and Vitaquest International Holdings LLC, have played a key role in propelling this development.

Health-related business achieved sustained sales growth of 45% over the same period last year amounting to more than HK\$380 million. We see immense opportunities for the expansion of our market share and business scope in the nutraceutical arena.

The development of our nutraceutical business coincides with the fast pace of growth recorded by the global nutritional products industry. Sales of nutritional and nutraceutical products worldwide have been boosted by increasing evidence of health benefits, widening acceptance by consumers and health professionals, as well as improving product quality and ranges around the world.

Against this backdrop, CK Life Sciences aims to capitalize on this opportunity to enhance our business by widening product portfolio and deepening market penetration.

Environmental Sales Over HK\$110 Million

For the period under review, the Group's environmental-related business reported sales of approximately HK\$114 million. Satisfactory progress has been achieved in our key markets, particularly Mainland China and Australia.

Given the increasing environmental concerns and heightened consumer demand for healthy produce, the Group's range of fertilizers has emerged as a timely and appropriate solution for environmentally conscious farming communities in major agricultural regions.

Continuous R&D Progress

During the first quarter, CK Life Sciences continued to make advances in our R&D initiatives. Substantial resources have been dedicated to accelerating the pace of the Group's product discovery, development and commercialization. In nutraceuticals, we have continued to develop and launch innovative new formulas to the market. In the arena of pharmaceuticals, several initiatives are underway, especially in the area of cancer research.

Strong Financial Foundation

As at 31 March 2007, cash and net financial assets on hand amounted to about HK\$1.5 billion, while bank loans were only HK\$339 million. Accordingly, CK Life Sciences is in a unique and strong financial position to finance our plans for R&D initiatives, acquisitions and expansion.

Prospects

Following a strong start to this year, we look forward to building on our solid business foundation to stride ahead.

With increasing wealth and purchasing power, people are becoming more health conscious than in the past. This provides a strong potential for CK Life Sciences' development in both health and environmental industries. With our strong business foundation and broad portfolio of products, CK Life Sciences will leverage on surging market demand to achieve continued growth.

CK Life Sciences has established a good financial track record and foundation, with proven capabilities in building and operating a profitable biotech company. We will expand our expertise and market reach through more R&D initiatives, organic growth of existing businesses and new acquisitions.

We expect 2007 to be another promising year of progress for CK Life Sciences. With a strong start in the first quarter, we are committed to maintaining our growth momentum for the rest of the year.

Acknowledgements

I would like to take this opportunity to thank our shareholders, Board of Directors, staff and business partners for their continued support.
